

AGENT AI CASH

(AAIC)

AI-Powered Financial
Ecosystem on Base

VERSION 1.0 | WHITEPAPER 2026

Executive Summary

TOKEN

\$AAIC

NETWORK

BNB Chain

STANDARD

BEP20

Agent AI Cash (AAIC) is a Web3 ecosystem focused on AI-powered technology and digital financial solutions, with products and infrastructure designed to support the future of digital finance.

The BEP20 launch framework is built around a permanent private-sale burn and a post-burn supply of 2.85B AAIC.

Vision & Mission

01 / VISION

Build a borderless financial ecosystem where crypto and fiat can blend into everyday financial activity, supported by intuitive AI.

02 / MISSION

Deliver an integrated wallet and financial experience that translates complex market information into accessible AI-assisted insights while connecting digital assets with payment utility.

Market Opportunity

Digital assets have expanded beyond simple holding, yet the user journey can remain fragmented.

MANAGE

Multiple wallets and networks can create friction.

UNDERSTAND

Market structure can be difficult to interpret in real time.

SPEND

Turning digital assets into everyday spending utility can require several steps.

AAIC approaches this opportunity by bringing intelligence, asset management and payment-oriented utility into one ecosystem.

AAIC Solution

A connected portal for key activities around digital finance.

Why BNB Chain

AAIC is preparing its token launch on BNB Chain using the BEP20 standard.

EFFICIENCY

Designed for efficient token and transaction infrastructure.

ACCESSIBILITY

A widely used EVM-compatible ecosystem for digital assets.

SCALABILITY

Provides a foundation for future ecosystem growth.

AAIC Ecosystem

Four connected layers form the ecosystem direction: asset management, intelligence, payments, and future hardware.

Multi-Chain Smart Wallet

The Smart Wallet is positioned as the command center for the ecosystem, designed to consolidate assets across multiple networks into a unified experience

UNIFIED DASHBOARD

A single view for portfolio activity

MULTI-CHAIN

Designed to work across multiple networks

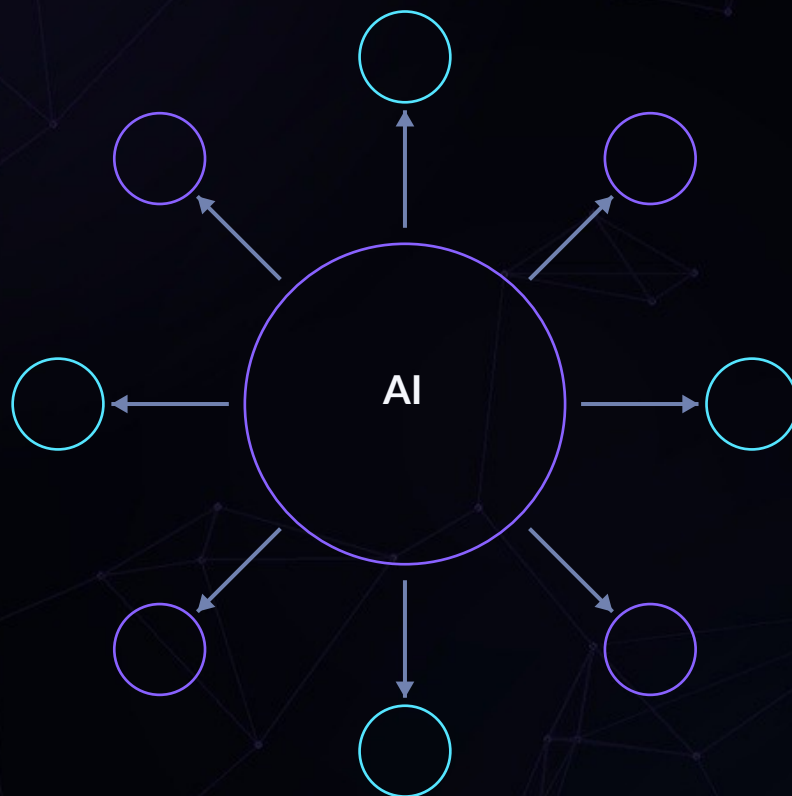

PAYMENT READY

Built around future payment connectivity

AI Layer & Smart Trading

The AI layer is designed to turn complex market information into more accessible insights and decision support.

REAL-TIME MARKET DECODING

Translate market structures into understandable information

STRUCTURAL AI

Identify market-structure changes, liquidity events and momentum shifts.

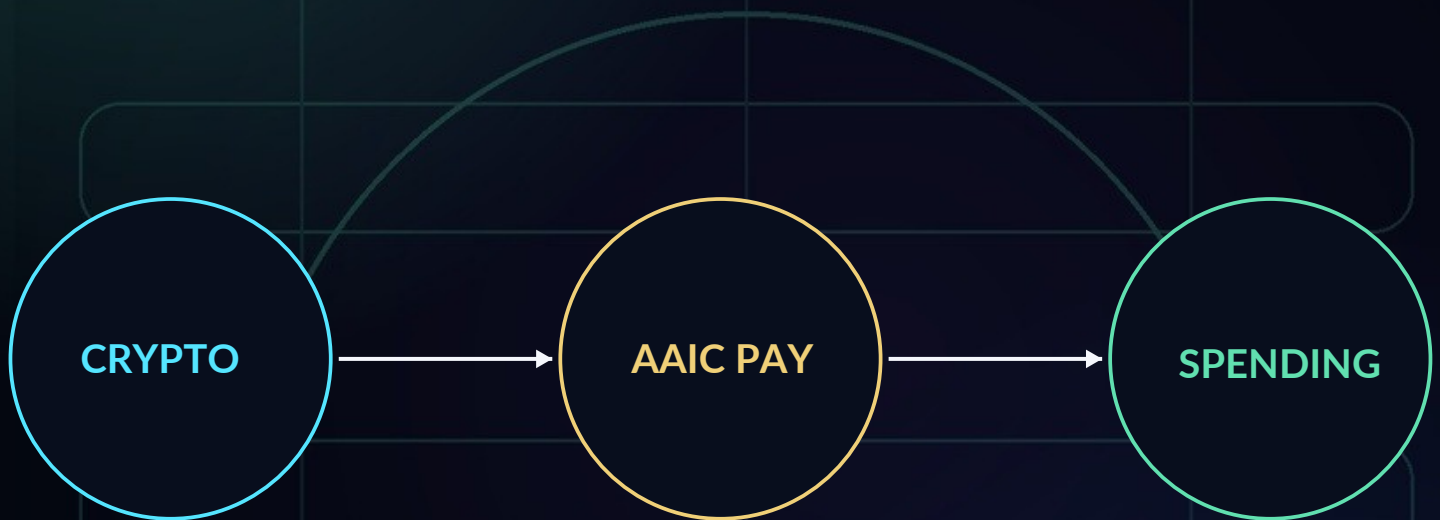

SECURITY SCANNING

Screen supported interactions for potential risks

AAIC PAY

A practical bridge between digital assets and everyday payment utility.

- Virtual and physical card direction.
- Designed to connect wallet balances with payment utility.
- Focused on a smoother bridge between digital assets.

Token Utility

The \$AAIC token is intended to support utility across the broader ecosystem.

PREMIUM AI FEATURES

Advanced AI market and trading-oriented features.

STAKING

Participation in staking and reward mechanisms.

NODE REWARDS

A dedicated allocation supports node and staking rewards.

ECOSYSTEM UTILITY

Connect token utility with the wider AAIC ecosystem.

Vesting & Unlocks

Cliffs and linear vesting structure token releases across selected allocations.

LIQUIDITY

- Full unlock at TGE - 100k worth of \$AAIC will unlock before listing (for listing requirements) - Rest amount will be locked

STAKING & NODE

- In app staking lock - 50% lock directly - 50% in future.

PUBLIC SALE

- 50% at TGE or Day 1 — 10% every 7 days

ECOSYSTEM

- 0% at TGE — cliff 3 month— 3 year linear vesting

MARKETING

- 0% at TGE — cliff 4 months — 4-year linear vesting

TEAM

- 0% at TGE — first unlock after 6 months — cliff 3 months — 5-year vesting

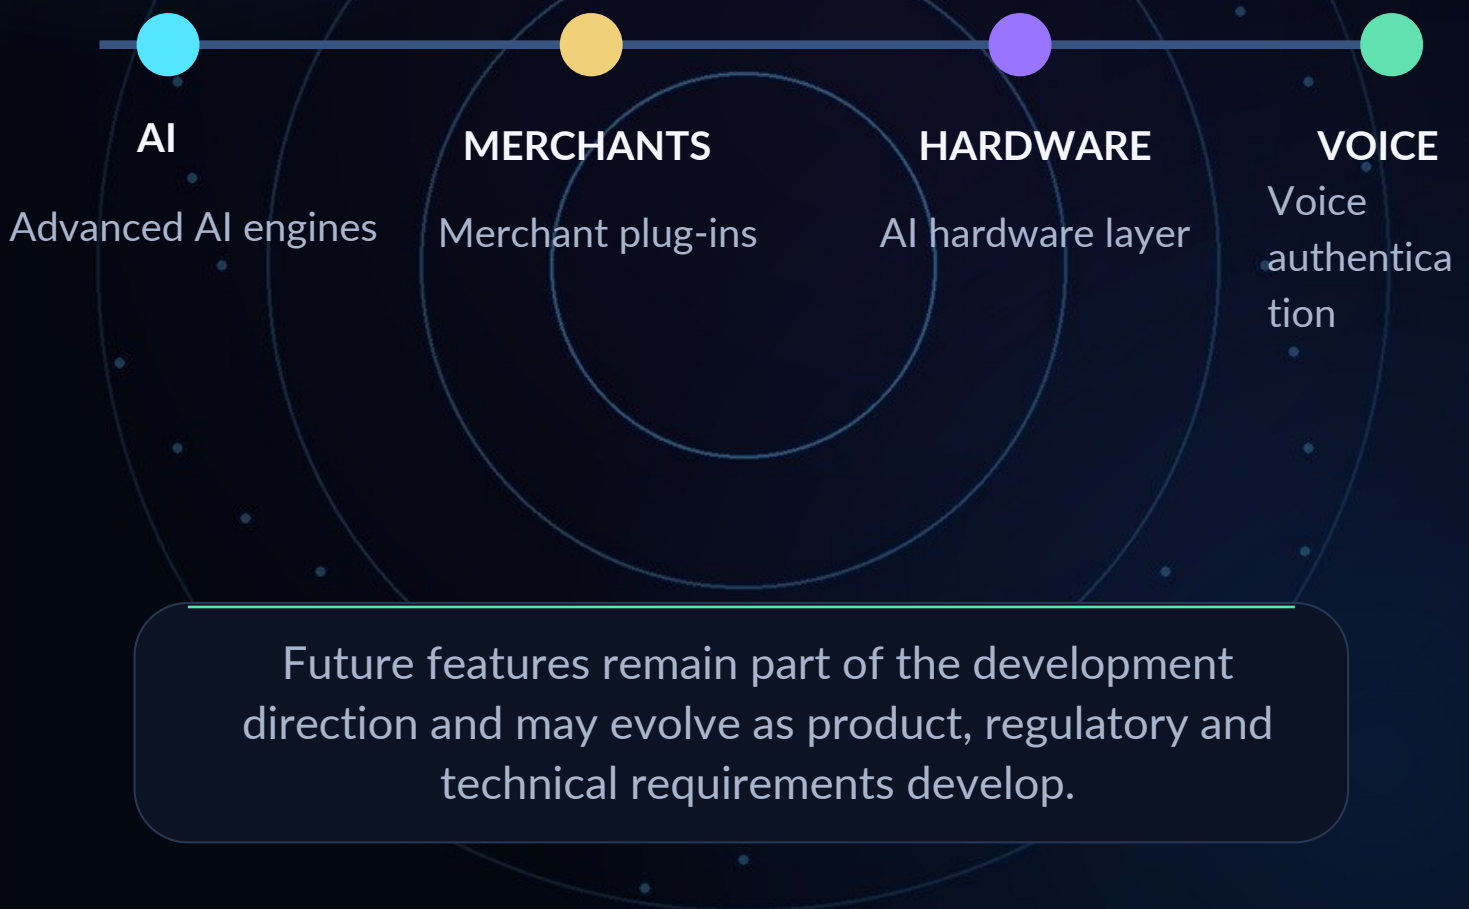

MARKETING TEAM

- 0% at TGE — cliff 1 year — 3-year linear vesting

Future Expansion

As the ecosystem matures, AAIC's documented future direction includes additional AI-managed financial products, merchant integrations and AI hardware capabilities.
